

GUIDE TO PAYING CARE FEES

If you, or a family member, are considering a move to a care home, one of the main concerns may be how you pay for care. The first step is to ask your Local Authority for a financial assessment. The purpose of this assessment is to establish if the person needing care has eligible assets over £23,250. If so, you will not be eligible for Local Authority funding.

WHAT ARE ELIGIBLE ASSETS?

The figures used to calculate what a person may be entitled to, are based solely on the individual who requires care. The assessment will take into account income from pensions and benefits, capital including savings, and, in some cases, the value of the person's home. If any assets are jointly owned, only 50% of the value should be included. A partner's assets are private.

ASSETS NOT TAKEN INTO ACCOUNT:

- The family home provided a spouse or other relative over 60 is living there.
- Any investment with a life assurance element, for example, an investment bond.
- The family home for the first 12 weeks.

PARTIAL FUNDING

If an individual's eligible assets are above £14,250 but fall below £23,250, then the Local Authority will make a contribution to care fees. The extent of the funding offered will depend on the individual's income and capital.

SELF FUNDING

If state assistance is not available because an individual has assets in excess of £23,250 they will be classed as a self-funder.

ADDITIONAL FINANCIAL ASSISTANCE

For more information on eligibility please see our Mogers Drewett Guide to Benefits.

| | | |
|----------------------|--------------------------------------|-------------------|
| Attendance Allowance | Higher Rate 2021/2022 | £89.60* per week |
| | Lower Rate 2021/2022 | £60.00* per week |
| Nursing Care* | Paid by Primary Care Trust 2021/2022 | £183.92* per week |

*This is paid direct to the nursing home. It covers the cost of registered nursing care employed by the home.

DEFERRED PAYMENT SCHEME

If you are self funding, you may need to sell your home to cover care costs. Provided active efforts are being made to sell the property, a Local Authority can provide funding under the Deferred Payment Scheme towards the care fees while the property is being marketed.

In effect this is a loan to avoid a forced sale of your home at a knockdown price. The breathing space offered by the scheme can allow people the time to obtain a better price for their property and alleviate some of the pressure at an already difficult time. However, interest will be charged on Deferred Payment Schemes.

To find out about this scheme, you should contact your Local Authority, though you should be aware that they may be reluctant to offer it.

NHS 'CONTINUING HEALTH CARE' FUNDING

In some cases a person needing care might meet the criteria to have care costs met in full by the local Primary Care Trust. We can advise on the criteria, appeals and care placements.
